

In an Emergency

Don't panic!

If you are unfortunate enough to have a problem with your brace, during surgery hours please telephone the practice immediately and we will ensure that you're offered an appointment at the earliest opportunity.

Our arrangements for emergencies during evenings and week-ends by can be confirmed by calling the practice and following the instructions on the answerphone message.

Brace problems - always contact Belmont Orthodontic Centre.

Toothache or avulsed (knocked out) teeth - the first port of call is your own dentist.
